PROFILE

Skilled in database management, front-end development, and systems support. I build modern, responsive web applications and aim to expand my expertise to full-stack development. My focus is on creating seamless user experiences and efficient server-side solutions. A natural problem-solver with attention to detail, and a passion for continuous learning to deliver innovative and scalable web solutions.

WORK EXPERIENCE

Civic Park Health Clinics | 2024 Sep - Present
Web Developer (Front-End)

Collaborated with clients to understand their goals and deliver high-quality websites on time and within budget. I leverage JavaScript (vanilla) for dynamic UX and CSS frameworks to bring these elements to life, such as TailwindCSS for seamless UI and scalable applications.

Myhealth Medical Centres | 2023 Jan - 2024 Oct
IT Support Officer

Provided remote and on-site support to end users for a wide range of IT issues, including hardware, software, network connectivity, and system performance. Diagnosed and resolved technical problems efficiently, escalating more complex/interesting issues to team lead support when necessary.

Total Computer Technology | 2021 Oct - 2022 Dec
Desktop Support Engineer

Provided remote support to companies ensuring that their network infrastructure runs smoothly by continuously monitoring, diagnosing, and resolving any issues. Diagnosed and resolved technical problems efficiently, escalating more complex/interesting issues to team lead support in a timely manner.

EDUCATION

TAFE NSW | 2025 - PRESENT
- Certificate IV in Information Technology (Networking)

TAFE NSW | 2022 - 2024
- Certificate IV in Cyber Security
